

Speed Queen Home Retail Front Washer Softmount

AFBE9BSP305NW29

Built better to last longer

From the mechanically rolled brushed finish on the hood to the 1 million button pushes during testing, you know the outside is as solid and reliable as the inside. Our electronic controls are the most durable on the market. In fact, the controls manufactured for home use are the same controls you'll find in laundromats, hotels, and other commercial applications.

A proven performer

Speed Queen laundry equipment is designed for commercial use and applies the same technology and commercial grade components to all of our models intended for use in the home. Our machines are tested to 10,400 cycles. When you take into consideration that the average user washes 8 loads per week, 52 weeks per year, that equates to 10,400 cycles or 25 years in the average home.
